

Baby Leaf

Baby leaves are the middle stage between micro greens and a full leaf. They are harvested at about 2” when full of flavor but at the perfect ready to use size. The best way to create a unique salad.

Spicy Greens

Arugula

Traditional broad leaf salad mix green with peppery flavor.

Sweet Lettuce

Coastline

Spiky leaves with very mild taste.

Garnish Greens

Cutting Celery

Delicate leaves with delightful light celery flavor.

Spicy Greens

Greenwave

Large leaves with ruffled edges and extra spicy flavor.

Spicy Greens

Mizuna

Fun shape with a mild spice. Fantastic addition to any mix.

Sweet Lettuce

Outredgeous

Smooth, light green leaves with red tips.

Asian Greens

Red Pac

Crisp leaves with light choy flavor and striking color when raw.

Spicy Greens

Red Rain

2" leaves with mild spice. Dual color leaves with red veins.

Curly Kale

Scarlet

Light red color with slightly ruffled edges with perfect kale crunch.
